

The NGC Registry is the most powerful and enjoyable tool available to the numismatic community.

Over the next few months, we'll be telling you about all the user-friendly features, dramatic growth, and scoring improvements we believe make us the hobby's most progressive registry.

THE HOBBY'S MOST
4
PROGRESSIVE REGISTRY

Collect the way you want to collect with **Signature Sets** — an NGC Registry exclusive.

Some of us collect Morgan Dollars. Others collect Commemoratives or Barber Dimes. But there are many of us who prefer more unique collections...ones that don't follow the rules.

The NGC Registry wanted to provide those collectors with the opportunity to showcase their sets as well. That's why we've introduced **Signature Sets**—a new way for collectors to display their collections that don't fit the mold of predefined Registry sets.

Enter any NGC or PCGS coin in your custom set—U.S. or World, any date and denomination.

Your collection. Your way. That's the idea behind Signature Sets—found exclusively at the NGC Registry. Just another reason the NGC Registry is the hobby's most progressive registry.
